

**We believe that cooking
and eating together will
bring us closer.**

Brand story

Inspired by the principles of the old mortar, Crushgrind® was developed to go beyond a simple pepper mill, aiming to create a superior grinder unlike anything on the market.

Driven by will, passion, and a touch of nerdiness, we invented the original ceramic mechanism—a groundbreaking innovation that revolutionized traditional pepper mills, allowing consumers to grind not only pepper but also salt and a variety of dried herbs and spices.

Crushgrind® has naturally evolved into carrying our own line of innovative and functional household products. We strive to create designs that put function first—but looking good doesn't hurt either.

Great design not only fits into the environment but can elevate it. It might even inspire you. We want to be a natural part of your kitchen. Maybe even encourage you to think more creatively. Try a new recipe or experiment with a spice blend. Spice things up a bit.

We blend Nordic design aesthetics with functionality, innovation, and high quality. Our products are durable and made from responsibly sourced materials, promoting fair labor practices.

Biocomposite - Crushgrind® Billund grinder

The Crushgrind® Billund series showcases a modern design – based on high-quality biocomposite material, aiming for a greener alternative by using a renewable material.

The surface of the biocomposite has a natural, earthy aesthetic which reflects its natural and green origin. The biocomposite is based on cellulose fibres from certified sustainably managed forests and crude tall oil, a residue of the pulp production process. Unlike crop-based biomaterials, this biocomposite doesn't interfere with a food-production chain.

The surface of the biocomposite features a smooth yet subtly textured finish, with delicate natural fibers or flecks visible throughout, adding character and a unique visual appeal. Due to the nature and origin of the biocomposite, the colors may occur slightly differently and with minor speckles on the surface of the grinder.

The biocomposite material is lightweight yet durable, offering a refined product that is as visually pleasing as it is functional.

Billund Spice Grinder

With the Billund grinder, we wanted to give you a fun and playful design to brighten up your kitchen table and help you crush boring food. Cooking should be fun!

The design is inspired by the colorful building blocks of Denmark, and it is based on a biocomposite made of wood-based cellulose fibers from certified, sustainably managed forests.

Billund is an upside-down grinder, ensuring you won't have any residue on the table! And with a silicone plug in the bottom, filling up the grinder has never been easier.

Due to the nature of the biocomposite, color variations and minor speckles may occur on the surface.

With a 25-year guarantee on the ceramic parts, this grinder is designed for longevity. The Crushgrind® mechanism lets you crush not just the usual salt and pepper, but anything you'd like, really. It's designed to grind whole, dried spices, releasing their aromas, flavors, and beauty. Let's crush boring food!

Billund Pitcher

Bring a touch of fun and versatility to your table with the Billund pitcher, part of our playful Billund series. Crafted from borosilicate glass, its unique design reflects light beautifully, shifting colors based on its contents for a dynamic, eye-catching effect.

Perfect for more than just water. Use it for juice, cocktails, or even as stylish storage for your favorite granola or cereals.

Available in two variants, the Billund pitcher is topped with a lid based on a bio-composite material of wood-based cellulose fibers sourced from certified, responsibly managed forests. Playful, practical, and designed to brighten any setting.

Billund Oil/Vinegar

Add a splash of fun and elegance to your table with the Billund oil/vinegar pitcher. Part of our playful Billund series, its tinted borosilicate glass reflects light beautifully, shifting colors depending on the contents. This pitcher is the perfect match for any kitchen or table, designed to showcase your favorite oil or vinegar in style.

The silicone spout is smartly crafted for precise, drip-free pouring, with a shape that sends liquids back into the bottle after use. Topped with a lid based on a biocomposite material of wood-based cellulose fibers, it's a design that is made to last. Billund oil/vinegar makes every pour a little more magical.

Billund self-watering pots

We've all been there. You bring home a bunch of basil or mint, and before you know it, wilted and sad. Fresh herbs are fabulous, but kind of high-maintenance.

Time for a fresh start. Meet your new kitchen sidekick: the Billund Self-Watering Pot. Designed for thirsty herbs like basil, mint, and parsley, it keeps them happy, hydrated, and full of flavor - no daily watering required.

Just fill the base with water and let the clever self-watering system do the rest. No guesswork. No dry soil. Just fresh, vibrant herbs whenever you need them.

Made from 75% recycled plastic, with soft, playful angles, the Billund Self-Watering Pot fits right into the cheerful spirit of the Billund series - designed with care for you and the planet.

So go ahead: keep your herbs fresh in the pot, your spices dry in the grinder and let the Billund series bring more flavor - and more fun - to your kitchen.

Zurich set with holder

Why settle for ordinary when you can have Zurich? The Zurich cutting boards are where function meets bold design, transforming everyday tasks into stylish moments.

Geometric, sleek, and versatile, Zurich is built for all your chopping, slicing, and serving needs. Whether in the kitchen or at the dining table, it's not just a cutting board—it's the backdrop for your culinary creativity.

This set of three colors and sizes of Zurich has been paired up with a holder to turn these every day kitchen tools into a piece of art - because your countertop deserves a little art, too!

Our Zurich cutting boards complement the Billund series, so feel free to mix and match with the products from the series to add a pop of personality to your kitchen.

Bergen

Bergen combines stylish simplicity with functionality. We aimed for the sweet spot between classic and modern, making it a versatile design.

Crafted from FSC®-certified wood and available in a selection of contemporary colors, Bergen is the perfect fit for both design lovers and cooking enthusiasts—a lasting companion of quality and timeless design.

With a 25-year guarantee on the ceramic parts, this grinder is designed for longevity.

The Crushgrind® mechanism lets you crush not just the usual salt and pepper, but anything you'd like, really. It's designed to grind whole, dried spices, releasing their aromas, flavors, and beauty. **Let's crush boring food!**

Basel Toolbox

Kitchen, office, or outdoors. Wherever life happens, this versatile toolbox keeps your essentials in place. Sleek and compact, it's your go-to for storing, organizing, and effortlessly moving everything you need from one place to another. Pack it up with grinders, oil, vinegar—whatever fuels your outdoor feast—and take the vibes outdoors.

The Basel toolbox isn't just practical; it's made of a biocomposite material crafted with wood-based cellulose fibers from sustainably managed forests. This gives it a warm, earthy feel that pairs perfectly with the oak wood handle. Smart, stylish, and always ready to roll. Due to the nature of the biocomposite, color variations and minor speckles may occur on the surface.

Mini Grinder Set

These small but mighty mini grinders with ceramic grinding mechanisms are made to go wherever you do – whether it's a picnic in the park, camping in the woods, or just adding a dash of flavor at the dinner table.

The set is ultra-compact, making it easy to bring along on your travels. The grinders sit neatly in a handy little holder, so you won't have to worry about spice dust on your table.

When it's time to move them around, simply squeeze the tops of the grinders and lift them up together – quick, clean, and kind of clever, if we may say so ourselves.

Champagne

Flip the ordinary upside down—literally. The Champagne Series is inspired by the timeless elegance of a champagne flute, bringing quiet luxury and bold design straight to your table. Each piece combines sculptural beauty with everyday functionality, crafted from FSC®-certified oak wood and refined steel details that tie the collection together. Together, the Champagne Series is more than kitchen tools—it's everyday luxury designed to be admired, used, and enjoyed.

Grinders

The iconic upside-down grinders keep your table spotless thanks to a silicone plug at the bottom. Easy to refill, designed to impress, and crowned with a mirror-polished steel top. A cheeky black or white ring keeps things simple—salt or pepper, easy. Natural oak variations make each set uniquely yours.

Cutting boards

Who said a cutting board must be boring? The Champagne cutting board is equal parts elegant and functional, made for slicing, serving, and showing off. Its sleek half-moon steel handle mirrors the steel top of the grinders, making the pair a perfect design match. Durable enough for daily use, yet beautiful enough to leave out when guests arrive.

Table Grater

The Champagne Table Grater turns grating into an experience worth displaying. Designed for the table, it lets you grate directly into the sculptural oak wood bowl—mess-free and stylish. A silicone ring keeps it steady, while the photo-etched steel surface ensures a smooth, satisfying grate every time. Add parmesan at the table, pop on the lid, and serve with ease.

Colombia

Slow down with Colombia coffee grinder. In a world that runs on take-away cups and multitasking, this grinder is our gentle protest. It invites you to pause. To listen to the beans crackle, breathe in the aroma, and feel the moment you're crafting your coffee. No shortcuts. No rush. Just you, your grinder, and a cup that taste like it was made with care, because it was.

Slim enough to slip into a drawer or your weekend bag, it's built for home rituals and road trip brews alike. We've kept only what matters: clean lines, a compact form, and a handle that clicks into place as a clever little lid, thanks to the magnet tucked neatly on the side. The round top? That's not just for looks, it's where function meets form.

So go ahead and take your time. You've earned it.
