FINE GLASSWARE FOR PROFESSIONAL USE IN HOTELS, RESTAURANTS AND BARS

John Jenkins is one of the United Kingdom's leading designers and suppliers of Crystal and Glass for the high end Hospitality Industry. Since 1901 our aim has been to design and supply stylish glassware which is practical in service and which complements both wine and table.

We keep in stock a large range of both hand made and machine made glassware which is available for immediate delivery. However, our in house design department also creates exclusive patterns of hand made glassware to the specific requirement of many of our Hospitality clients.

OUR DESIGN PHILOSOPHY

GLASSES FOR WINE

The wine glasses that we keep in stock range from GALA, which is machine made and relatively inexpensive, to STARR, Our Finest Wine Glass, a fully hand made glass intended for the serious wine enthusiast.

Whatever the price point, each pattern aims to provide the best combination of cost and performance that is possible at that price. There are patterns with short stems which are particularly suited to very busy establishments and there are also long stemmed patterns that are more suited to fine dining restaurants.

Every pattern, whether machine made or hand made, benefits from the latest advances in glass making technology which have enhanced the clarity, durability and scratch resistance of these wine glasses.

With hand made glass a great variety of shapes is possible; and we specialise in designing exclusive patterns that are developed for many hospitality clients around the world.

GLASSES FOR THE BAR

In recent years the Bar has become a much more important feature of the Hospitality business-hence the large assortment of specialist Bar glasses that we now offer; some of these echo the designs of the 1920s when cocktails were all the rage, others are clearly of today. Many of these shapes have been developed in cooperation with eminent Bar and Mixology professionals who need an exceptional glass in which to serve the latest cocktails.

Some of these glasses are machine made, with the more unusual shapes being hand made; and we are constantly designing new, bespoke Cocktail Glasses and Tumblers for our Hospitality clients.

As with our Wine Glasses, these Bar glasses have been carefully designed with Style and Glamour in mind and they really do enhance the Cocktail Bar experience.

With a showroom and distribution centre in both the UK and the USA we are able to give an excellent service to clients all over the world. If you are a Hospitality professional please contact us and we will be happy to send you a copy of our current catalogue and we also hope that you will be able to visit one of our showrooms.

BESPOKE

John Jenkins has for many years specialised in designing bespoke glassware for clients who want something exclusive and different; our Design Office is always ready to discuss new projects.

Most bespoke glassware is handmade, so almost any shape and decoration is possible.

Machine made glassware at lower price points can also be created, but the minimum quantities required are much higher than for handmade glass.

For further information please contact us.
